Kitchen Confidential

Sleek and mindful define Scavolini's Poetica cabinet-front system. With a grounding essence, Poetica is not only aesthetically versatile, but addresses a growing sentiment for spaces that are streamlined yet stylish. The Shaker-like lower cabinet fronts are framed by solid ash wood, while the vertical back cabinets are made of 100% recycled plastic bottles that yield a surprisingly tactile finish. Behind the smooth doors and drawers, you'll find what's on every homeowner's wish list: thoughtful details for a functional kitchen experience. scavoliniusa.com
