

SCAVOLINI

Elegante stile classico-contemporaneo per la cucina **Carattere**, ora arricchita con nuove finiture e accessori, qui presentata con ante a telaio in laccato lucido Bianco Prestige e in vetro Bronzo trasparente. Cifra stilistica del modello è proprio l'anta a telaio, che conferisce all'insieme il calore e il fascino delle residenze di campagna. Elementi distintivi del modello sono il bancone colazione impiallacciato Rovere Nordic, in appoggio all'isola, e l'armadio con ante a scomparsa Switch, che può contenere fino a quattro elettrodomestici. Schienale e top della composizione a parete sono in marmo Fior di Pesco Carnico; i piani della zona lavaggio e cottura sono in acciaio.

ANTA CLASSICA
E FUNZIONALITÀ

COMPOSIT

A total white look for **Melograno**, a furnishing system that is classic in taste, seen here with white lacquered oak fronts and shelves and back panels in statuary marble. There are various distinctive stylistic details, including the "handle frame": a continuous profile hollowed out around the whole perimeter that means the door can be opened from any point. The fronts are embellished with carved pilasters on the cabinet block and between the base units, and these are repeated above, alongside the wall units, which has decorated columns on the worktop. The decorated columns are fitted with a pull-out element and come in five heights.

SCAVOLINI

An elegant classic-contemporary style for the **Carattere** kitchen, now enhanced with new finishes and accessories and presented here with framed fronts in glossy Prestige White lacquerwork and clear Bronze glass. The signature stylistic feature of the model is the framed front itself, which conveys a sense of the warmth and charm of a country house. Other distinctive features of the model are the Nordic Oak veneer breakfast bar, attached to the island, and the Switch cabinet with disappearing pocket doors, which can contain up to four appliances. The back panel and worktop of the wall composition are Carnico Peach Blossom marble; the worktops around the washing and cooking area are steel.
