Request More Information

Created as a natural extension of the Formalia home system designed by Vittore Niolu for Scavolini, Formalia Outdoor marks the company's first foray into outdoor cabinetry. The kitchen retains the traits of Formalia - a handle fitted into door, the Status Wall System, and the open-fronted modular structure made of aluminum and available in Rust, Black and Titanium finishes. The system consists of no less than 19 elements. The kitchen shown has structure and shelves in steel with Status Wall System in Titanium finish, teak veneered door and Titanium finish handle profile.
